Since 15 September, there has been a notable surge in the number of returnees to Afghanistan, taking place primarily through the Torkham and Spin Boldak border crossings. The announcement on 3 October by Pakistan's national Apex Committee of the plan¹ to repatriate over a million foreigners without valid documents, mostly Afghans triggered a consistent and steep increase in the number of undocumented and ACC holders crossing the border points. This culminated at the beginning of November in line with the ultimatum of 1 November given to illegal foreigners residing in Pakistan by Pakistan's Minister of Interior. There have been nearly 490,000 returnees recorded during this period, with numbers increasing from less than 200 per day in early October to more than 25,000 by early November. This influx, consisting largely of forced returns, also includes a large number of deportations. Since the initial peak around November 1st, the number of individuals crossing these official border points have consistently decreased but remains higher than pre-September 15th.

LOCATION OF ORIGIN VS. LOCATION OF RETURN

(CUMULATIVE)

Cumulative data collected during the provision of assistance at the Spin Boldak and Torkham border crossing points indicate the vast majority of returnees (87%) aim to return to their provinces of origin, with 83% planning to resettle to their district of origin. The majority of returnees aim to resettle in Nangahar, Kandahar, Kunar, Kabul, and Kunduz.
