# **RETURNEE INFLOW FROM PAKISTAN**

15 SEP 2023 - 24 FEB 2024

# FIND OUR DATA ONLINE ON OUR INTERACTIVE DASHBOARD

Since 15 September, there has been a notable surge in the number of returnees to Afghanistan, taking place primarily through the Torkham and Spin Boldak border crossings. The announcement on 3 October by Pakistan's national Apex Committee of the plan to repatriate over a million foreigners without valid documents, mostly Afghans triggered a consistent and steep increase in the number of undocumented and ACC holders crossing the border points. This culminated at the beginning of November in line with the ultimatum of 1 November given to illegal foreigners residing in Pakistan by Pakistan's Minister of Interior. There have been over 524,000 returnees recorded up to 24 February 2024, with numbers increasing from less than 200 per day in early October to more than 25,000 by early November. This influx, consisting largely of forced returns, also includes a large number of deportations. The number of individuals crossing these official border points is back to pre-crisis levels, but partners continue to monitor the situation closely to anticipate any future influx.
