

### MIGRATION HEALTH OPERATIONAL PRESENCE

IOM's migration health programming is fully **operational in eleven provinces** bordering Pakistan, Iran, Uzbekistan, Tajikistan and Turkmenistan. With over 280 dedicated staff working on health programmes, since the beginning of the year, **more than half a million people have received direct health assistance**. IOM's health teams coordinate closely with partners and stakeholders across the country at all levels, and is rapidly increasing its capacity to adapt and fill urgent gaps to support the health system both in the shorter and longer term.

## OUTPATIENT CARE SERVICES

IOM provides life-saving health services to some of Afghanistan's hardest-to-reach populations, through its mobile health teams and its rapid response teams for COVID-19, facilitates tuberculosis programming in border and host communities, and provides COVID-19 vaccinations. This week:

### NUMBER OF OUTPATIENT CONSULTATIONS BY PROVINCE

**1395**  
PERSONS SUPPORTED WITH TRAUMA CARE

**79,205**  
PERSONS REACHED WITH HEALTH PROMOTION

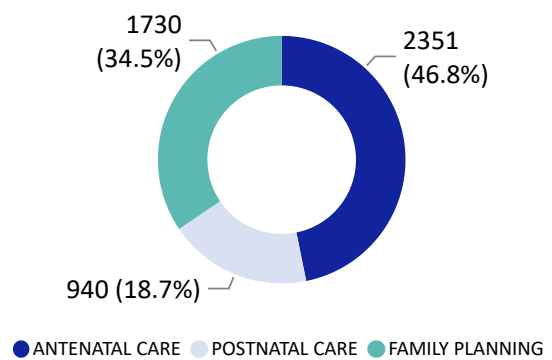

## REPRODUCTIVE CARE SERVICES

Ensuring women and girls can access health care services is a priority, this includes reproductive health services. IOM has female staff as part of all teams, and **provides comprehensive reproductive, maternal, neonatal and child health care services by qualified and skilled midwives and nurses.**

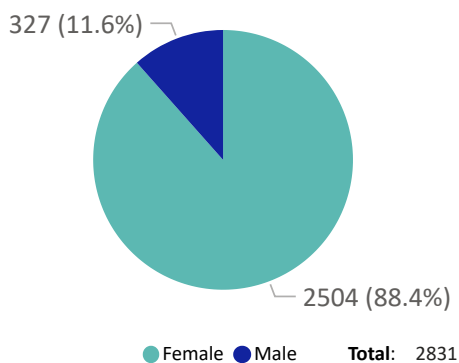

**5,021**  
WOMEN AND GIRLS REACHED WITH REPRODUCTIVE CARE SERVICES

### REPRODUCTIVE CARE CONSULTATIONS BY TYPE

## MENTAL HEALTH AND PSYCHOSOCIAL SUPPORT

## COVID-19-RELATED HEALTH SERVICES

IOM's services regarding COVID-19 include screening for COVID-19, targeted health promotion and community engagement, demand generation activities for COVID-19 vaccination, testing (both through rapid and PCR testing systems) and referrals for COVID-19-positive cases. IOM is also supporting national COVID-19 vaccination efforts in twelve provinces (**Badakhshan, Badghis, Balkh, Herat, Helmand, Ghor, Kabul, Kandahar, Kunduz, Nangarhar, Nimroz and Takhar**) in close coordination with the Provincial Public Health Directorate. This week:

IOM remains committed to supporting the Health Cluster and partners, the national vaccination programme related to COVID-19 and other infectious diseases, It is mobilizing its unique capacity to ensure that some of the country's hardest-to-reach populations have access to health and immunization services.
